J. WESLEY LOFTIS, A.B.

*Director of  
The Department  
of Extension.*

Through this Department many are enabled to pursue their studies by correspondence. This Department also conducts a general bureau of information concerning the interests of the College in every way.

THOS. H. TAYLOR,  
A. B., A. M.

Dean Taylor is one of Howard Payne's greatest assets. He is an authority in the school world. Not only is he interested in the School and the students but he is capable of seeing to the best interests of both.

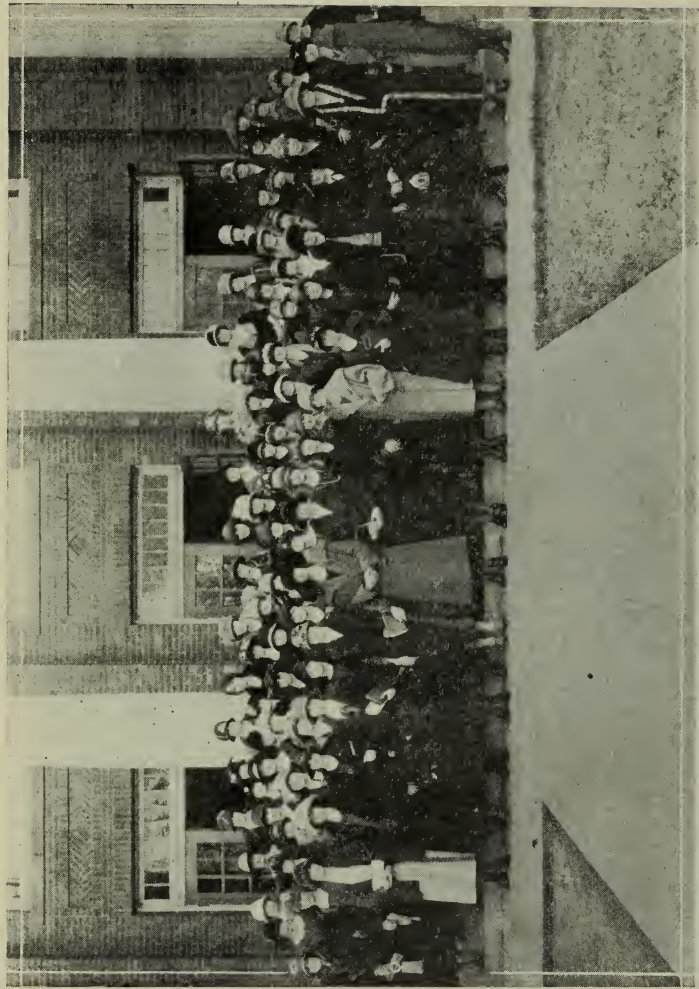

"The Dean" has the distinction of having been everything from a country boy student to the governing official of the college,

### THE PREACHERS' COUNCIL

Every year a large number of fine young ministers go out from the College well prepared to do a worthy type of work in any town or community.

### FIDELIS SUNDAY SCHOOL CLASS

Mrs. E. Godbold teaches these fine young ladies who are consecrated, and many of whom have surrendered, for special work. They go out from here prepared to be a blessing to the world.

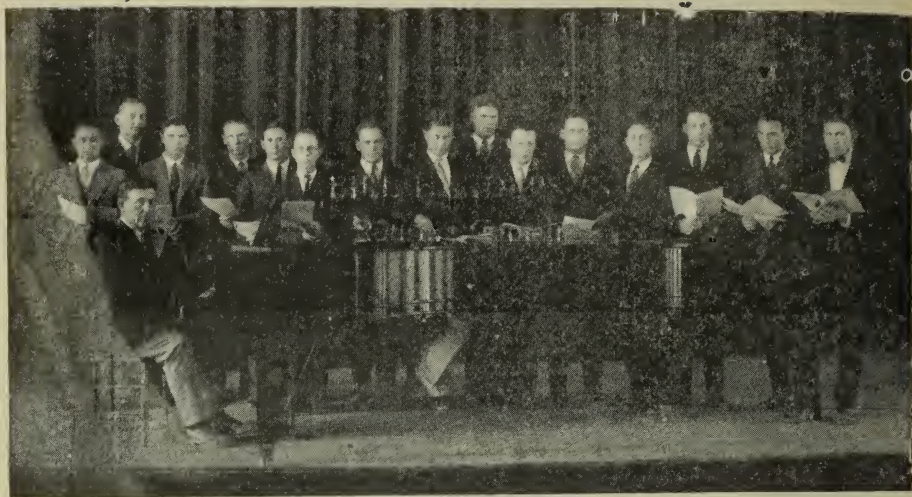

## CAMERON MARSHALL VOICE

Mr. Marshall, who is head of the Voice Department as well as Dean of Fine Arts, is unexcelled as an instructor. Not only is he known throughout the State as having a voice of wonderful quality, but he is recognized over the South as one of its leading singers and instructors. It is through his efforts that notable musical attractions of the country are brought to Brownwood. He has earned for Brownwood the title of "THE MUSICAL CENTER OF THE WEST."

## THE "BLUE DEVIL" BAND

LLOYD DUNGAN, Director

T. B. (Daddy) AMIS, Director  
DEPARTMENT OF PHYSICAL EDUCATION.

With only a handful of green material, "Dad" Amis directed the "Yellow-Jackets" through one of the greatest athletic years in their history, in 1924. Going through the season undefeated, Howard Payne was awarded the official championship of the T.I.A.A., more a personal attainment of Coach Amis, than of the eleven which won the honor.

Coaching his men at all times to play a clean, fair game, and giving them the fundamentals of football in the minute details, the Yellow-Jacket aggregation by the close of the season was undoubtedly the swiftest and most powerful machine in the Lone Star State, as a result of the efforts exerted by the greatest coach in Texas.

## *I. The "WHY" of our Physical Education Department.*

### *1. WE RECOGNIZE OUR EXISTING NEED.*

When Howard Payne College opens next term, courses for both men and women leading to majors in Physical Education and Athletic Coaching will be instituted. The new courses place Howard Payne distinctly on a par with the great institutions of the East, North and West. Passage of state laws requiring Physical Education in the secondary schools thereby increasing the demand for teachers well educated and with a full knowledge of the field was the salient reason for the institution of these courses. Not only is there a demand for capable instructors of Physical Education but also it has been universally recognized that coaches, in all sports must be more than successful former athletes trying to teach that in which they excel. They must be men thoroughly educated in their particular branches with additional knowledge of physiology, psychology, athletic coaching and physical education. The Department of Physical Education and Athletic coaching in Howard Payne College endeavors to educate such men and for this purpose majors will be given for these courses.

### *2. WE PROMOTE CLEAN SPORTS FOR ALL.*

For several years Howard Payne has offered very little in athletic coaching and physical education except to members of various teams such as football, basketball, baseball, track and tennis; those of the coming year will be better organized, more complete and more stimulating than ever before. Included on the list are courses in subjects of interest to both men and women and embracing both athletic coaching and directorship and physical education itself. A number of these courses have never been offered at Howard Payne College.

3. *WE DIRECT  
NATURAL  
PHYSICAL  
TENDENCIES.*

The desire to match strength, skill and brains against those of some opponent is a natural heritage of mankind. For a few, favored by great natural ability, that desire is satisfied by intercollegiate athletic competition. But many are denied this opportunity and it is a fact that these men are the ones most in need of exercise and training. The modern tendency of physical education is away from formal drills and calisthenics, the emphasis is being placed more and more on games properly organized and supervised. In the past six years intramural athletics have found an important place in the scheme of Physical Education. Its purpose is to give every man the opportunity for competition in every kind of athletics.

*II. The "HOW" of our Physical Education Department.*

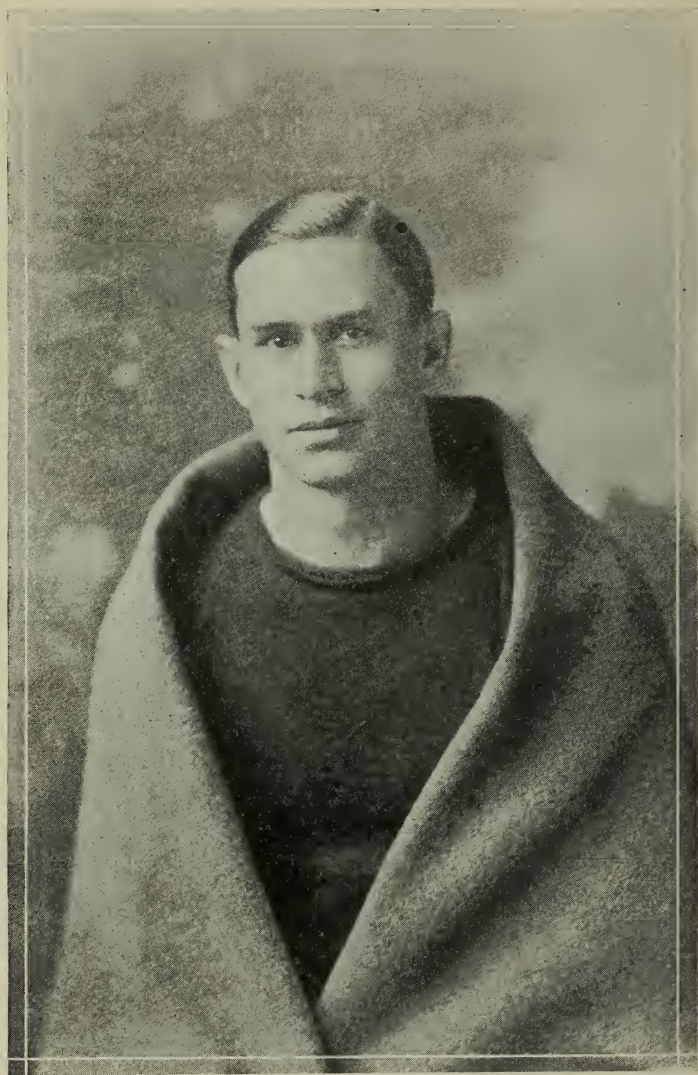

1. *BY REACHING  
EVERY  
STUDENT.*

In order to do this, every male student, will be required to take part in some sport. During the year 1924-25 we only had 100 out of 1,000 actually participating in the various athletic activities. The slogan for 1925-26 "Athletics for All" and "Every Man an Athlete" may be judged trite by a student of literature, but their truth cannot be doubted nor their value condemned. At Howard Payne they will be in full effect with crowded gymnasium or athletic field overflowing with groups of young men and women, whole heartedly competing against each other.

2. *BY COURSES  
THAT ARE  
IN DEMAND.*

The activities to be taken up will be football, basketball, baseball, fall track, indoor baseball, volley ball, etc. The courses and their contents in detail are: FOOTBALL THEORY, BASKETBALL THEORY, BASEBALL THEORY, TRACK AND FIELD ACTIVITIES, CROSS COUNTRY RUNNING, OFFICIATING COMPETITIVE GAMES, MEDICAL SUPERVISION, PLAY AND PLAYGROUND SUPERVISION.
